Matching On 6th March Is Back Again. - Story by Mr. Joshua Opata

For some years now, Oguaa SDA School had not taken part in the match pass! But this year came as a surprise when the school was given a short notice to partake in the event. It left teachers with no choice but to have little over a day to rehearse. Using this limited time to rehearse and compete with neighboring schools that have been practicing for over two weeks was indeed a challenging task but the teachers were able to put up an enviable display at the event ground.

On the first day of rehearsal, the Head Teacher together with all the teachers took part. Mr. Opata on that same day came in the evening to have extra rehearsal with the pupils. The next day, a less rigorous rehearsal took place after school hours to prevent fatigue.

The event day finally arrived. Expectations from community leaders, parents, stakeholders and well wishers were very high. Pupils were led by the teachers to match through the community to Seniagya where the event took place. Upon reaching there, we were then asked to further match through that community before coming to the assembly ground for the actual activity. The Assembly Man of the area presented a speech followed by the match pass.

Sincerely, our performance came as a shock to all when we were called upon because our pupils performed to meet expectations and I can confidently say we were amongst the best. Even our Head Teacher became speechless. Expect nothing less. We are coming with full strength next year.

Learning With Technology.

Where do I even start from? Long story short, our school has currently integrated electronic learning/e-learning during instructional times by kind courtesy of Open Learning Exchange-OLE with sponsorship from World Vision. To the left is a picture of pupils using some of the equipment during contact hours.
