My First Day at School

The Purpose is to welcome new pupils especially KGS and P1 for the new Academic year.

This year 2013 – 2014, the MP for Ayawaso West Wuogun together with the OIC, C.S and some officers of the sub metro welcomed the pupils.

The Children responded well to questions asked by the MP. He advised them to learn hard, take their studies seriously, to be good and responsible men and women in future.

The children were presented with an Exercise book each, crayons and school uniforms. The children were excited they sang and thanked the Honourable M.P.

The OIC Mrs Eleanor Swatson Brown on behalf of the Sub-Metro and the school thanked the MP and his officers.

The MP Honorable Emmanuel Agyarko took the opportunity to visit the school feeding canteen and the site for the Kindergarten project.

He called for the need for the completion of the project.
School had a Parent Teacher Association meeting on the 19th September 2013 at the church hall. Opening address was done by the Headmistress of the school Mrs. Victoria Addison after which she introduced the teachers of the school to the parents. Both new and old teachers also spoke on my first day at school which was led by the MP Honorable Emmanuel Agyarko with his entourage.

Some items like school uniform, exercise books and crayons were presented to the school children.

During the meeting parents also decided to help the school by renovating the classroom and change the chalk board to white board.

However issues or matter on the welfare of the pupils were emphasized especially on punctuality and disservice. She also spoke about pupil being repeated in their classes and explained that if a child did not do well in his or her academics he/she should be repeated. Parents also accepted all that were discussed at the meeting and left for the evening.

In carrying tablets back and forth from one class to another, unfortunately it was observed by teacher and pupils that there were cracks on some tablets.

This prompted pupils to create a cover for the tablets. Mensah Ganyo and Boateng Joseph pupils in P6B used brown paper, manilla cards and sellotape to make nice jackets for all the tablets. Pupils are unhappy about the cracks and hope it will not occur again.

Education will make me function positively
You will define my future
You will be a prove of my time
And my parents resources
I will always embrace you Education
To make me successful
Education Education Education
