WORLD DAY AGAINST CHILD LABOUR

World Day against child labor is an International event observed by the whole world on 12th June annually. World Vision is an International non-governmental organizations which in collaboration with GES assists some schools in deprived areas in Ghana. Akuakrom Methodist Primary is one of the schools which benefits from World Vision. On the 31st day of June 2013 World Vision in Sekyere East assisted their schools in the District to organize child labour day locally. And fortunately the program was hosted in our school. In the course of the program, the pupils undertook various activities including; drama, chorography, poems and rhymes recitals, singing and so on. Pupils' preparation and participation towards the whole program was very encouraging and parents' attendance was impressive. The Deputy Director of Education was present, the head of basic schools was also there including World vision representative. As usual, the queen mother and the town elders were also there. Parents were educated on issues concerning child labour through drama and poems by their wards. And a brief speech was delivered by the head of basic schools, Mrs Mary Margaret Adjei, advising and educating parents present on the need to uphold the rights and privileges of their wards.

STORIES, JOKES AND PUZZLES

A dog died and the owner took it to a church and asked the pastor if he could organize a funeral service for the dead animal.

Pastor: No, we can't hold a service for your dog in our church but there is a church down the street may be they will do it for you.

Man: I wanted to donate \$1000,000 to your church.

Pastor: oooh! Sorry! You should have said that in the beginning, that your dog was a Christian.
